It Grows Hair  
Here Are Facts I Want You  
to Prove at My Risk

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed, and will not gum or permanently stain the hair.

I want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell me, and without question or formality I will hand back to you every penny you paid me for it. Two sizes, 50c. and \$1. Sold only at my store—The Rexall Store, Thos. J. Chenoweth, Second and Sutton streets, Maysville, Ky.

Miss Lottie Wood of West Front street left Saturday for a protracted visit with relatives and friends in Ashland, Ky.

Mr. and Mrs. Willis Viley and daughter, Elizabeth, and Mr. and Mrs. Frank Bell and son, Viley, all of Lexington, spent Sunday with their cousin, Miss Anna Frank, in East Second street. They made the round trip in their automobile.

GEORGE EALS

Seriously Hurt—Jumped Off Viaduct  
to Escape Being Run Down By  
a Yard Engine

It is not always best to take the shortest route, especially when the path lies over a railroad viaduct.

Yesterday, shortly after the noon hour, Mr. George Eals was walking the C. and O. viaduct, and when half way between Bridge and Limestone streets he heard a train approaching. Thinking it was running on the track he was walking on he stepped over to the other, and instead of getting out of the path of the oncoming engine he had stepped right in its way, and when he realized his mistake had bare time to jump when the locomotive flashed by. In jumping his heel hung on a timber, throwing his shoulder and side against a heavy iron cross-beam.

The viaduct at the point where the accident occurred is about twenty feet high.

He was removed to his home in East Second street on a stretcher. Just how serious his hurt Dr. Cooper did not fully determine yesterday. His left shoulder, side and arm is the seat of injury.

Somewhat in the nature of a paradox was his admonition delivered to his young son only a half hour before he was injured, of the ever present danger attending those who use railroad beds and viaducts as a foot path. This is the first time he ever did the like himself.

On a second examination it was found that his shoulder was fractured and his injuries considered serious.

BIG MEETING

The Tobacco Growers of Mason  
County Turned Out Saturday in  
Large Numbers—Enthusiastic  
and Stirring Speeches

Pursuant to a call the tobacco growers of Mason county assembled in the Courthouse in this city Saturday afternoon at 1:30 for the purpose of discussing the tobacco situation.

The meeting was called to order by R. T. Watson, Chairman of the County Board of Control, who on stating the object of the meeting, announced the election of a Permanent Chairman was the first order of business. Hon. J. N. Kehoe being elected by a unanimous vote.

In taking the Chair Mr. Kehoe delivered a timely and stirring speech, and on call County Attorney Thomas D. Slattery followed in strains of like character. In like manner did Prof. W. C. Coryell arouse enthusiasm by a prettily worded speech. There were incongruous remarks, as one of Maysville's colored asses was wont to put it, made by others present.

A committee of three was appointed to hold all the pledges signed on and after October 9th, with the understanding that this committee shall bring said pledges to a meeting of all the counties to be held in Lexington on October 31st, at 10 a. m., with the understanding that the majority of the committee so selected from each county be empowered, after hearing the reports from all the counties present, either to deliver the pledges to the Burley Tobacco Society or take them home and destroy them. The following were chosen to represent Mason county—J. J. Perrine, Benjamin Marshall and J. N. Kehoe.

An active canvass is to be made by solicitors and pledges turned over to the above committee. It was the consensus of the meeting that 125,000 acres should be signed up to make it a go.

At the present time, Mason county has about 4,000 acres signed up. Last year she had 7,000. Now that the 1910 pool has been declared off matters are in somewhat of a chaotic state.

Lydia E. Pinkham's Vegetable  
Compound Cured Her

Knoxville, Iowa.—"I suffered with pains low down in my right side for a year or more and was so weak and nervous that I could not do my work. I wrote to Mrs. Pinkham and took Lydia E. Pinkham's Vegetable Compound and Liver Pills, and am glad to say that your medicines and kind letters of directions have done more for me than anything else and I had the best physicians here. I can do my work and rest well at night. I believe there is nothing like the Pinkham remedies."—Mrs. CLARA FRANKS, R. F. D., No. 3, Knoxville, Iowa.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

### GOING UP!

**Dr. A. G. Browning Tells How One Feels Making a Balloon Ascent—A Hair-Raising Experience**

*The Public Ledger:* The ancient American of it was going up in a balloon. But, there's "nothing in a name," and 'tis said a rose smells as sweet by any other. Only this: if having any horse sense, don't go ballooning after ascents of roses. I've been there; nothing in it.

It wasn't with Jules Verne in his "Five Weeks in a Balloon." 'Twas with Professor Godard, and five hours was quite enough. If our heavenly home, indeed, lies in that direction, the shipping clerk was off balance; I was surely in other places while it lasted.

Professor Godard, a skilled aeronaut from Paris, France, was making daily ascents from Washington City. 'Twas his custom to have some one, so inclined, join him. I didn't then know just what impelled me, later I had some vague impressions, so it was I found myself beside him in his "touring car," and the world and the fullness thereof dropping out beneath us. That's just the sensation; you don't go up, the earth goes down, there's nothing above—there's less below. Though a Roosevelt,

and weighing a ton, you are decimated in the matchless ether.

Coming to my senses, if any, my first impression was of Dante's Inferno, or the real thing. Scant comfort to know that instead, we were a thousand feet in the air. The naked fact was, we were central to a thunder cloud, the lightning doing stunts only known to fiction.

To me 'twas a long, seemingly endless voyage. Incidents, there were none, save expert dodging of the electric freaks and mental kicks for my folly.

The end of it all was in an apple orchard, just fifty yards from Chesapeake Bay and twice as many miles from my home in Washington.

I footed it to the nearest depot, leaving the illustrious aeronaut to the solution of his own problem.

Going up in a balloon has attractions, a matter of taste. However, mine is satisfied. But, at very best, it's tame compared with a twenty-five-mile ride on a cow-catcher. But that's a different story. A. G. B. Maysville, Ky., October 12th, '10.

Why Your New Suit  
Should Be a Hunt Suit

There is every reason why you should choose your Suit from the complete line we are showing.

Styles are advanced and exclusive. Materials are select—guaranteed by the makers to give two seasons' satisfactory service. The snug fit of the collar—the graceful curve of the shoulder—the correct line over the hips could not be bettered if each garment was tailored to individual measure. Yet with all their superiority these Suits are priced most moderately—

\$12<sup>1</sup>/<sub>2</sub> to \$35.

Prettiness for 50c.

Flannelette petticoats used to have nothing to recommend them but their comfort but beauty is added now

making them pretty enough to delight any woman. Solid blue, pink and white, or dainty striped patterns with single or sectional ruffles neatly scalloped, some with embroidered design above scallop. Rarely attractive garments for 50c.

Embroidered  
Linen Handkerchiefs for 10c

It's something to exclaim about! We never recall such a thing as an embroidered linen handkerchief for 10c. Not the finest linen of course but pure linen with narrow hemstitched hem and a dainty bit of embroidery, not in one corner but in each corner.

Black Dress Goods

An exceptional showing of such weaves as Serge and batiste at 59c to \$1 yard. Poplin, wool taffeta, voiles and empress cloth at \$1. Chuddah cloth—a silk and wool light weight material with a crepe finish, \$1.25 yard—it's a very stylish fabric for dresses this season in just the weight for all-year-round service.

1910 POOL OFF

District Board, in Session at Lexington, Writes "Finis" to Memorable Struggle With the Trust

Rush of Buyers to Country Districts Causes Collapse of Lebus' Company

Sunday's Lexington dispatch says:

By a resolution adopted by a unanimous vote at 11:54 o'clock Saturday night, the District Board of the Burley Tobacco Society officially declared off the pool of the 1910 crop. The pool will have a technical existence only until the individual growers themselves have acquiesced in the action. This acquiescence will probably have effect in the sale of a vast quantity of tobacco Monday, as the growers are released of all obligation.

OTHER POOL ALSO CLOSES.

Passing with the Burley pool also is the independent pool launched in Georgetown last Wednesday. By a declaration sent to the meeting here, the founders of the new move-

ment concur in the course forced upon the Burley Board. The statement was prepared and delivered after those who signed it had a conference with Congressman J. C. Cantrill and other supporters.

FUTURE POLICY OF SOCIETY.

In a statement prefacing the resolution, President Lebus outlined what may be the policy of the Burley Tobacco Society. He was vociferously applauded when he referred to a possible cut-out of the 1911 crop, and said that those in the 1909 pool should demand a fair price for the 1909 crop even if they had to hold it.

There were five additions and one conversion at the Forest Avenue V. E. Church at last night's services.

NEW MANAGER

Saturday the Directors and Stockholders of the Maysville Base Ball Club entered into a contract with Edward Mackey of Union City, Ind., to manage the home team for the season of 1911. Mr. Mackey was manager of the Union City Club last year and comes here highly recommended as a person well fitted for the position. He assured the Maysville syndicate that the 1911 team would be a high class one and that their position at the end of the season would be at the head of the procession or thereabouts. Maysville is itching for a winning team and should Mr. Mackey deliver the goods this city will be one of the best baseball towns in the Bluegrass League.

### WAS HE PLAYING OPOSSUM?

Ed. White, colored, who claims Hamilton, O., as his home, was found yesterday about 2 o'clock under the bank at the foot of Market, in what was supposed an unconscious condition, the supposition being that he had been struck by a passing train. He was removed on stretchers to the Undertaking rooms of Coughlin & Co., where a thorough examination was made by Dr. A. O. Taylor, C. and O. Company Surgeon, who failed to discover any broken bones or other injury about the man's body. Although he tried to make it appear that he was suffering great agony, the fellow was evidently faking, as he was able to walk up Market street after a short time. He was later taken to Jail for a night's comfortable rest. White had been drinking, and it is a possibility that while sitting on the end of the viaduct he fell asleep and toppled off over the bank where he was found.

ABE HAY.

Mr. Abe Hay died last night at 10:30 o'clock at his home in January street, after a protracted illness, aged 32 years past.

He was a consistent member of the M. E. Church, South, a kind and dutiful husband and excellent citizen. He is survived by a wife and three children.

Funeral tomorrow afternoon at 2 o'clock from his late home, with services by Rev. B. F. Chatham of the First M. E. Church, South. Interment in Maysville Cemetery.

JACOB WORMALD.

A telegram was received here yesterday announcing the death at 6 o'clock a. m. of Mr. Jacob Wormald at his home at Newport.

Mr. Wormald was stricken with paralysis on Wednesday last, notice of which was made in Saturday's LEDGER.

He was a former resident of Maysville and has many friends here who will regret to learn of his death.

He is survived by his wife and several children.

The arrangements for the funeral had not been learned when THE LEDGER went to press.

### Life Insurance or Death Insurance—Which?

"People willingly pay large sums for life insurance, which is really death insurance; but real life insurance frequently consists in taking Eckman's Alternative.

Can any 'lung sick' person afford not to take this Alternative?

It sharpens the appetite, makes life look different, brings better health with greater earning power. Often persons are so much improved that they can work even before they are finally cured. Investigate it. You are broad minded enough to believe that there can be a cure for Consumption which has not been sensationally exploited, or which is not based merely on climatic or diet restrictions. Mr. Webb's report follows:—

Weldon, Ill.  
Gentlemen: "During 1905, my physician sent me to Texas, from there to Colorado. I became worse and was sent home to die. I heard of Eckman's Alternative, began treatment, and was cured. I earnestly recommend Eckman's wonderful cure for Consumption."

(Signed) Affidavit: ARTHUR WEBB, Eckman's Alternative cures Bronchitis, Asthma, Hay Fever, Throat and Lung Affections. Ask for booklet of cured cases and write to the Eckman Laboratory, Philadelphia, Pa., for additional evidence. For Sale by all leading druggists and J. James Wood & Son in Maysville.

### DEATH OF SENATOR DOLLIVER

FR. DODGE, IOWA, October 15th—United States Senator Jonathan Prentiss Dolliver died of dilation of the heart caused by an attack of acute indigestion at his residence at 7:30 o'clock tonight while being rubbed by an osteopath physician. Senator Dolliver had been up all day and had made the trip from his residence down town.

By the death of Senator Dolliver not only the Republican party, but the entire world, loses one of its greatest statesmen and leaders. He was the greatest of all the so-called "insurgents" and was an incorruptible citizen.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Doan's Kidney Pills never fail you.

Maysville people know this.

Read this Maysville case.

Read how Doan's stood the test

For three years.

It's local testimony and can be investigated:

William H. Paul, 333 East Third street,

Maysville, Ky., says:

"For two years I had pains in my back and other troubles, caused by disordered kidneys. When Doan's Kidney Pills were brought to my attention I began their use and they soon gave me relief. I cheerfully recommend this remedy as one that lives up to the claims made for it."

The above statement was given on December 13th, 1904, and on February 6th, 1908, Mr. Paul added:

"My opinion of Doan's Kidney Pills has not changed since I first recommended them. My cure has been permanent and I am now in good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

### Gas Light Talks—No. 31.

### Why It Was Done.

In Saturday's Talk, we told you that the Trolley company offered to pay for such extra material and labor as was necessary to construct a proper pavement last Spring.

Under the terms of its contract, it was in no way bound to make this, or any, offer connected with any paving construction.

But it did make the offer, and for this reason: If the tracks had not been in the streets, the owners of abutting property would have been compelled to pay the entire cost of a solid brick pavement, of ordinary construction.

But the tracks WERE and are in the streets and the Trolley company is compelled by its contract to keep in repair the pavement between its rails.

Therefore, it was anxious to have a proper pavement laid, so that the necessity for repairs would be minimized.

Now, inasmuch as the tracks were in the streets, it was just as important for the property owners as for the street railroad to have a properly constructed street.

In this case, proper construction meant an extra heavy concrete base under the brick between the rails and around the ties.

If this were not done, there was danger of seepage of water between the brick and the rails at the crown of the street and this water, running off to the gutter between the concrete base and the brick, would, eventually, damage the pavement.

That being the case, the street railroad voluntarily offered to stand the cost of this extra work rendered necessary by its tracks being in the streets.

It was not bound to do this, and it made the offer to keep the extra cost, due to its occupancy of the streets, from falling on the owners of abutting property.

As you know, the administration was not satisfied with this offer. It had to "get after the special interests."

The whole thing finally simmered down to an unofficial statement—or, it wasn't a statement, it was an intimation—that if the Trolley company would put in the concrete base for the paving, the city would put in the sand cushion and lay the brick.

This the Trolley company refused to do.

[His Honor, the Mayor, interrupts us to ask some questions. We beg His Honor's indulgence and assure him that we shall be glad to answer when we have finished talking.]
